Number 1 – November 1991

Research articles

EEG spectral analysis and topographic mapping in Wilson's disease
N.-S. Chu, C.-C. Chu, S.-C. Tu and C.-C. Huang (Taiwan) 1

A family of familial hypercholesterolemia with cerebral infarction and without coronary heart disease. An unusual case with corneal opacity, polyneuropathy and carpal tunnel syndrome in the family: therapy with probucol and tocopherol nicotinate
Y. Ihara, K. Nobukuni, R. Namba, K. Kamisaka, M. Kibata, K. Kajinami, H. Fujita, H. Mabuchi, T. Shirabe, K.-I. Ohshima, A. Mori and H. Kodama (Japan) 10

Cerebral angio- and neuro-Behçet's syndrome: neuroradiological and pathological study of one case
M. Nishimura, K.-i. Satoh, M. Suga and M. Oda (Japan) 19

The role of magnetic stimulation in the diagnosis of multiple sclerosis
R.H. Kandler, J.A. Jarratt, E.J.W. Gumpert, G.A.B. Davies-Jones, G.S. Venables and H.J. Sagar (U.K.) 25

The role of magnetic stimulation as a quantifier of motor disability in patients with multiple sclerosis
R.H. Kandler, J.A. Jarratt, G.A.B. Davies-Jones, E.J.W. Gumpert, G.S. Venables, H.J. Sagar and A. Zeman (U.K.) 31

Long term follow-up of multiple sclerosis by standardized, non-contrast-enhanced magnetic resonance imaging
L. Truyen, J. Gheuens, P.M. Parizel, F.L. Van de Vyver and J.J. Martin (Belgium) 35

Leukoencephalopathy in HTLV-I-associated myelopathy/tropical spastic paraparesis: MRI analysis and a two year follow-up study after corticosteroid therapy
J.-i. Kira, K. Fujihara, Y. Itoyama, I. Goto and K. Hasuo (Japan) 41

Cortical serotonin-S_2 receptor binding in Lewy body dementia, Alzheimer's and Parkinson's diseases
A.V.T. Cheng, I.N. Ferrier, C.M. Morris, S. Jabeen, A. Sahgal, I.G. McKeith, J.A. Edwardson, R.H. Perry and E.K. Perry (U.K.) 50

Comparison of short-term effects of insulin and essential fatty acids on the slowed nerve conduction of streptozotocin diabetes in rats
P.O.O. Julu and A. Mutamba (Zimbabwe) 56

Vacuolar myositis with expression of both MHC class I and class II antigens on skeletal muscle fibers
I. Higuchi, M. Nerenberg, T. Ijichi, H. Fukunaga, K. Arimura, F. Usuki, M. Kuriyama and M. Osame (Japan, U.S.A.) 60

Skeletal muscle regeneration in young rats is dependent on growth hormone
M. Ullman and A. Oldfors (Sweden) 67

Hormonal changes in headache patients
O. Elwan, M. Abdella, A. Bakr El Bayad and S. Hamdy (Egypt) 75

Effect of intraventricular injection of an anti-Purkinje cell antibody (anti-Yo) in a guinea pig model
F. Graus, I. Illa, M. Agusti, T. Ribalta, F. Cruz-Sanchez and C. Juarez (Spain) 82

No transketolase abnormalities in Wernicke–Korsakoff patients
B.A. Blansjaar, R. Zwang and B.G. Blijenberg (The Netherlands) 88

A monoclonal antibody against HSV type 1 ribonucleotide reductase cross-reacts with the P_0 protein of peripheral nerve myelin
B. Höjeberg, R. Ingemarsson, K. Kristensson, E. Lycke and T. Olsson (Sweden) 91

Antibody in the CSF of patients with multiple system atrophy reacts specifically with rat locus ceruleus
R.J. Polinsky, A. McRae, S.M. Baser and A. Dahlström (U.S.A., Sweden) 96

Expression of intercellular adhesion molecule 1 (ICAM-1) in Alzheimer's disease
E.M. Frohman, T.C. Frohman, S. Gupta, A. De Fougerolles and S. Van den Noort (U.S.A.) 105

Book reviews 112

Number 2 – December 1991

Abstracts

Course on Molecular and Cellular Approaches to the Treatment of Brain Disease.
The Association for Research in Nervous and Mental Disease, Inc. with the New York Academy of Medicine 115

Research papers

Amyloid beta protein deposition in brains from elderly subjects with leukoaraiosis
M. Tabaton, C. Caponnetto, G. Mancardi and C. Loeb (Italy) 123

Coronal reconstruction images of glucose metabolism in Alzheimer's disease
H. Fukuyama, K. Harada, H. Yamauchi, T. Miyoshi, S. Yamaguchi, J. Kimura, M. Kameyama, M. Senda, Y. Yonekura and J. Konishi (Japan) 128

Parvalbumin immunoreactive neurons in normal human temporal neocortex and in patients with Alzheimer's disease
I. Ferrer, E. Soriano, T. Tuñón, M. Fonseca and N. Guionnet (Spain) 135

Quantitative neuropathological study of Alzheimer-type pathology in the hippocampus: comparison of senile dementia of Alzheimer type, senile dementia of Lewy body type, Parkinson's disease and non-demented elderly control patients
P. Ince, D. Irving, F. MacArthur and R.H. Perry (U.K.) 142

Lhermitte's sign in a patient with herpes zoster
T.L. Vollmer, L.M. Brass and S.G. Waxman (U.S.A.) 153

Morphometric analysis of blood vessels in chronic experimental spinal cord injury: hypervascularity and recovery of function
A.R. Blight (U.S.A.) 158

Geotropic ocular deviation with skew and absence of saccade in Creutzfelt–Jakob disease
T. Yokota, K. Tsuchiya, M. Yamane, M. Hayashi, H. Tanabe and H. Tsukagoshi (Japan) 175

Pathology of roots, spinal cord and brainstem in syringomyelia-like syndrome of Tangier disease
J.C. Antoine, M. Tommasi, S. Boucheron, P. Convers, B. Laurent and D. Michel (France) 179

Interferon-alpha treatment in HTLV-I-associated myelopathy. Studies of clinical and immunological aspects
K. Shibayama, T. Nakamura, K. Nagasato, S. Shirabe, M. Tsujihata and S. Nagataki (Japan) 186

Muscle histopathology in myoclonus epilepsy with ragged-red fibers (MERRF)
T. Matsuoka, Y.-i. Goto, M. Yoneda and I. Nonaka (Japan) 193

Autopsy report of HTLV-I-associated myelopathy presenting with ALS-like manifestations
Y. Kuroda and H. Sugihara (Japan) 199

Postischemic alteration of muscarinic acetylcholine, adenosine A_1 and calcium antagonist binding sites in selectively vulnerable areas: an autoradiographic study of gerbil brain
T. Araki, H. Kato, K. Kogure and T. Saito (Japan) 206

Prognosis of myasthenia gravis: a multicenter follow-up study of 844 patients
E. Beghi, C. Antozzi, A.P. Batocchi, F. Cornelio, V. Cosi, A. Evoli, M. Lombardi, R. Mantegazza, M.L. Monticelli, G. Piccolo, P. Tonali, D. Trevisan and M. Zarrelli (Italy) 213

Phosphate/calcium alterations in the first stages of Alzheimer's disease: implications for etiology and pathogenesis
P.W. Landfield, M.D. Applegate, S.E. Schmitzer-Osborne and C.E. Naylor (U.S.A.) 221

Letters to the Editor

Is isoelectric focusing a "gold standard" for evaluation of formulas for calculation of intrathecal immunoglobulin synthesis?
S. Öhman 230

Reply to the letter by Öhman (J. Neurol. Sci., 106 (1991) 230–231)
J.H.M. Souverijn (Netherlands) 232
